I told you in one of my books that when I started playing, I liked it very much and I wanted to learn the most quickly possible, so I practiced very much, poor my mother one day wanted to launch my guitar, because I spent it practicing all day. Now that myth that you have to learn music like a child is not true, that if you are already an adult you could not learn. Music is an extension of your feelings and I understand that there are also adults who learn much more quickly than other children. And it happens that children have all the time in the world to learn, they do not have responsibility for working, maintaining a house or taking care of a child, but with today's technology they are very distracted and it is possible that if a program is not set for them. specific to practice, do not do it. On the other hand, an adult has little time to practice and his hours of practice are more effective, because he has only one thing in mind: learning as soon as possible.
